10 **BEFORE THE**
MEDICAL BOARD OF CALIFORNIA
DEPARTMENT OF CONSUMER AFFAIRS
11 **STATE OF CALIFORNIA**

12 In the Matter of the First Amended Accusation
Against:

Case No. 800-2016-024953

FIRST AMENDED ACCUSATION

13 **THOMAS JEROME LANCASTER, M.D.**
14 **1230 Pearsall Way**
Yuba City, CA 95991
15 **Physician's and Surgeon's Certificate**
No. G 70162,

16 Respondent.

17
18 **PARTIES**

19 1. William Prasifka (Complainant) brings this First Amended Accusation solely in his
20 official capacity as the Executive Director of the Medical Board of California, Department of
21 Consumer Affairs (Board).

22 2. On or about October 29, 1990, the Medical Board issued Physician's and Surgeon's
23 Certificate No. G 70162 to Thomas Jerome Lancaster, M.D. (Respondent). The Physician's and
24 Surgeon's Certificate was in full force and effect at all times relevant to the charges brought
25 herein and will expire on October 31, 2020, unless renewed.

28 ///

JURISDICTION

1
2 3. This First Amended Accusation is brought before the Board, under the authority of
3 the following laws. All section references are to the Business and Professions Code unless
4 otherwise indicated.

5 4. Section 2227 of the Code provides in pertinent part, that a licensee who is found
6 guilty under the Medical Practice Act may have his or her license revoked, suspended for a period
7 not to exceed one year, placed on probation and required to pay the costs of probation monitoring,
8 or such other action taken in relation to discipline as the Board deems proper.

9 5. Section 2234 of the Code, states:

10 “The board shall take action against any licensee who is charged with unprofessional
11 conduct. In addition to other provisions of this article, unprofessional conduct includes, but is not
12 limited to, the following:

13 “(a) Violating or attempting to violate, directly or indirectly, assisting in or abetting the
14 violation of, or conspiring to violate any provision of this chapter.

15 “(b) Gross negligence.

16 “(c) Repeated negligent acts. To be repeated, there must be two or more negligent acts or
17 omissions. An initial negligent act or omission followed by a separate and distinct departure from
18 the applicable standard of care shall constitute repeated negligent acts.

19 “(1) An initial negligent diagnosis followed by an act or omission medically appropriate
20 for that negligent diagnosis of the patient shall constitute a single negligent act.

21 “(2) When the standard of care requires a change in the diagnosis, act, or omission that
22 constitutes the negligent act described in paragraph (1), including, but not limited to, a
23 reevaluation of the diagnosis or a change in treatment, and the licensee's conduct departs from the
24 applicable standard of care, each departure constitutes a separate and distinct breach of the
25 standard of care.

26 “(d) Incompetence.

27 “(e) The commission of any act involving dishonesty or corruption which is substantially
28 related to the qualifications, functions, or duties of a physician and surgeon.

1 “(f) Any action or conduct which would have warranted the denial of a certificate.

2 “(g) The failure by a certificate holder, in the absence of good cause, to attend and
3 participate in an interview by the board. This subdivision shall only apply to a certificate holder
4 who is the subject of an investigation by the board.”

5 6. Section 2261 of the Code states:

6 “Knowingly making or signing any certificate or other document directly or indirectly
7 related to the practice of medicine or podiatry which falsely represents the existence or
8 nonexistence of a state of facts, constitutes unprofessional conduct.”

9 7. Section 2262 of the Code states:

10 “Altering or modifying the medical record of any person, with fraudulent intent, or creating
11 any false medical record, with fraudulent intent, constitutes unprofessional conduct.

12 “In addition to any other disciplinary action, the Division of Medical Quality or the
13 California Board of Podiatric Medicine may impose a civil penalty of five hundred dollars (\$500)
14 for a violation of this section.”

15 8. Section 2266 of the Code states:

16 “The failure of a physician and surgeon to maintain adequate and accurate records relating
17 to the provision of services to their patients constitutes unprofessional conduct.”

18 9. Section 810 of the Code states:

19 “(a) It shall constitute unprofessional conduct and grounds for disciplinary action, including
20 suspension or revocation of a license or certificate, for a health care professional to do any of the
21 following in connection with his or her professional activities:

22 (1) Knowingly present or cause to be presented any false or fraudulent claim for the
23 payment of a loss under a contract of insurance.

24 (2) Knowingly prepare, make, or subscribe any writing, with intent to present or use
25 the same, or to allow it to be presented or used in support of any false or fraudulent claim.

26 “(b) It shall constitute cause for revocation or suspension of a license or certificate for a
27 health care professional to engage in any conduct prohibited under Section 1871.4 of the
28 Insurance Code or Section 549 or 550 of the Penal Code.

1 “(c)(1) It shall constitute cause for automatic suspension of a license or certificate issued
2 pursuant to Chapter 4 (commencing with Section 1600), Chapter 5 (commencing with Section
3 2000), Chapter 6.6 (commencing with Section 2900), Chapter 7 (commencing with Section
4 3000), or Chapter 9 (commencing with Section 4000), or pursuant to the Chiropractic Act or the
5 Osteopathic Act, if a licensee or certificate holder has been convicted of any felony involving
6 fraud committed by the licensee or certificate holder in conjunction with providing benefits
7 covered by worker's compensation insurance, or has been convicted of any felony involving
8 Medi-Cal fraud committed by the licensee or certificate holder in conjunction with the Medi-Cal
9 program, including the Denti-Cal element of the Medi-Cal program, pursuant to Chapter 7
10 (commencing with Section 14000), or Chapter 8 (commencing with Section 14200), of Part 3 of
11 Division 9 of the Welfare and Institutions Code. The board shall convene a disciplinary hearing to
12 determine whether or not the license or certificate shall be suspended, revoked, or some other
13 disposition shall be considered, including, but not limited to, revocation with the opportunity to
14 petition for reinstatement, suspension, or other limitations on the license or certificate as the
15 board deems appropriate.

16 (2) It shall constitute cause for automatic suspension and for revocation of a license or
17 certificate issued pursuant to Chapter 4 (commencing with Section 1600), Chapter 5
18 (commencing with Section 2000), Chapter 6.6 (commencing with Section 2900), Chapter 7
19 (commencing with Section 3000), or Chapter 9 (commencing with Section 4000), or pursuant to
20 the Chiropractic Act or the Osteopathic Act, if a licensee or certificate holder has more than one
21 conviction of any felony arising out of separate prosecutions involving fraud committed by the
22 licensee or certificate holder in conjunction with providing benefits covered by worker's
23 compensation insurance, or in conjunction with the Medi-Cal program, including the Denti-Cal
24 element of the Medi-Cal program pursuant to Chapter 7 (commencing with Section 14000), or
25 Chapter 8 (commencing with Section 14200), of Part 3 of Division 9 of the Welfare and
26 Institutions Code. The board shall convene a disciplinary hearing to revoke the license or
27 certificate and an order of revocation shall be issued unless the board finds mitigating
28 circumstances to order some other disposition.

1 (3) It is the intent of the Legislature that paragraph (2) apply to a licensee or
2 certificate holder who has one or more convictions prior to January 1, 2004, as provided in this
3 subdivision.

4 (4) Nothing in this subdivision shall preclude a board from suspending or revoking a
5 license or certificate pursuant to any other provision of law.

6 (5) "Board," as used in this subdivision, means the Dental Board of California, the
7 Medical Board of California, the Board of Psychology, the State Board of Optometry, the
8 California State Board of Pharmacy, the Osteopathic Medical Board of California, and the State
9 Board of Chiropractic Examiners.

10 (6) "More than one conviction," as used in this subdivision, means that the licensee or
11 certificate holder has one or more convictions prior to January 1, 2004, and at least one
12 conviction on or after that date, or the licensee or certificate holder has two or more convictions
13 on or after January 1, 2004. However, a licensee or certificate holder who has one or more
14 convictions prior to January 1, 2004, but who has no convictions and is currently licensed or
15 holds a certificate after that date, does not have "more than one conviction" for the purposes of
16 this subdivision.

17 "(d) As used in this section, health care professional means any person licensed or certified
18 pursuant to this division, or licensed pursuant to the Osteopathic Initiative Act, or the
19 Chiropractic Initiative Act."

20 **PERTINENT DRUG INFORMATION**

21 10. Alprazolam – Generic name for the drug Xanax. Alprazolam is a short-acting
22 benzodiazepine used to treat anxiety, and is a Schedule IV controlled substance pursuant to Code
23 of Federal Regulations Title 21 section 1308.14. Alprazolam is a dangerous drug pursuant to
24 California Business and Professions Code section 4022 and is a Schedule IV controlled substance
25 pursuant to California Health and Safety Code section 11057(d).

26 11. Amphetamine salts – Generic name for the drug Adderall, which is a combination
27 drug containing four salts of the two enantiomers of amphetamine, a Central Nervous System
28 (CNS) stimulant of the phenethylamine class. Adderall is used to treat attention deficit

1 hyperactivity disorder and narcolepsy but can be used recreationally as an aphrodisiac and
2 euphoriant. Adderall is habit forming. Amphetamine salts are a Schedule II controlled substance
3 pursuant to Code of Federal Regulations Title 21 section 1308.12(d) and a dangerous drug
4 pursuant to Business and Professions Code section 4022.

5 12. Aripiprazole – Generic name for the drug Abilify, among others. Aripiprazole is an
6 atypical antipsychotic, primarily used in the treatment of schizophrenia and bipolar disorder.
7 Other uses include as an add-on treatment in major depressive disorder, tic disorders and
8 irritability associated with autism. It is taken by mouth or by injection into a muscle.
9 Aripiprazole is a dangerous drug pursuant to California Business and Professions Code section
10 4022.

11 13. Dextroamphetamine-Amphetamine – Generic name for Adderall XR, Mydayis.
12 Dextroamphetamine-Amphetamine is used to treat attention deficit hyperactivity disorder and
13 narcolepsy. It is a combination medication containing four (4) salts of amphetamine, and works
14 as a central nervous system stimulant. Dextroamphetamine-Amphetamine is a Schedule II
15 controlled substance pursuant to Code of Federal Regulations Title 21 section 1308.12 and Health
16 and Safety Code, section 11055, subdivision (b), and a dangerous drug pursuant to Business and
17 Professions Code, section 4022.

18 14. Hydromorphone hydrochloride – Generic name for the drug Dilaudid.
19 Hydromorphone hydrochloride (“hcl”) is a potent opioid agonist that has a high potential for
20 abuse and risk of producing respiratory depression. Hydromorphone hcl is a short-acting
21 medication used to treat severe pain. Hydromorphone hcl is a Schedule II controlled substance
22 pursuant to Code of Federal Regulations Title 21 section 1308.12, and a dangerous drug pursuant
23 to California Business and Professions Code section 4022 and is a Schedule II controlled
24 substance pursuant to California Health and Safety Code section 11055(b).

25 15. Lamotrigine – Generic name for the drug Lamictal, among others. Lamotrigine is
26 an anticonvulsant medication used to treat epilepsy and bipolar disorder. Epileptic symptoms
27 treated include focal seizures, tonic-clonic seizures, and seizures in Lennox-Gastaut syndrome. In
28 bipolar disorder, it is used to treat acute episodes of depression and rapid cycling in bipolar type

1 II and to prevent recurrence in bipolar type I. Lamotrigine is a dangerous drug, pursuant to
2 Business and Professions Code, section 4022.

3 16. Lorazepam – Generic name for Ativan. Lorazepam is a member of the
4 benzodiazepine family and is a fast-acting anti-anxiety medication used for the short-term
5 management of severe anxiety. Lorazepam is a Schedule IV controlled substance pursuant to
6 Code of Federal Regulations Title 21 section 1308.14(c) and Health and Safety Code section
7 11057, subdivision (d), and a dangerous drug pursuant to Business and Professions Code section
8 4022.

9 17. Methylphenidate – Generic name for Ritalin, is a central nervous system stimulant
10 medication used to treat attention deficit hyperactivity disorder (ADHD) and narcolepsy. It is a
11 first line medication for ADHD. It is taken by mouth or applied to the skin. Methylphenidate is a
12 Schedule II controlled substance pursuant to Code of Federal Regulations Title 21 section
13 1308.12 and Health and Safety Code, section 11055, subdivision (b), and a dangerous drug
14 pursuant to Business and Professions Code, section 4022.

15 18. Oxycodone – Generic name for OxyContin, Roxicodone, and Oxecta. Oxycodone
16 carries a high risk for addiction and dependence, and can cause respiratory distress and death
17 when taken in high doses or when combined with other substances, especially alcohol.
18 Oxycodone is a short-acting opioid analgesic used to treat moderate to severe pain. OxyContin
19 ER is a long-acting opioid formulation consisting of an extended-release mechanism. Oxycodone
20 is a Schedule II controlled substance pursuant to Code of Federal Regulations Title 21 section
21 1308.12. Oxycodone is a dangerous drug pursuant to California Business and Professions Code
22 section 4022 and is a Schedule II controlled substance pursuant to California Health and Safety
23 Code section 11055(b).

24 19. Sertraline – Generic name for the drug Zoloft, is an antidepressant of the selective
25 serotonin reuptake inhibitor (SSRI) class. It is used to treat major depressive disorder, obsessive-
26 compulsive disorder, panic disorder, post-traumatic stress disorder, premenstrual dysphoric
27 disorder, and social anxiety disorder. Sertraline is a dangerous drug pursuant to Business and
28 Professions Code section 4022.

1 20. Temazepam – Generic name for Restoril. Temazepam is an intermediate-acting
2 benzodiazepine used to treat insomnia. Temazepam is a Schedule IV controlled substance
3 pursuant to Code of Federal Regulations Title 21 section 1308.14(c). It is a Schedule IV
4 controlled substance pursuant to Health and Safety Code section 11057, subdivision (d), and a
5 dangerous drug pursuant to Business and Professions Code section 4022.

6 21. Zolpidem tartrate – Generic name for Ambien. Zolpidem tartrate is a sedative and
7 hypnotic used for short-term treatment of insomnia. Zolpidem tartrate is a Schedule IV controlled
8 substance pursuant to Code of Federal Regulations Title 21 section 1308.14(c). It is a Schedule
9 IV controlled substance pursuant to Health and Safety Code section 11057, subdivision (d), and a
10 dangerous drug pursuant to Business and Professions Code section 4022.

11 **FIRST CAUSE FOR DISCIPLINE**

12 **(Gross Negligence)**

13 22. Respondent Thomas Jerome Lancaster, M.D. is subject to disciplinary action under
14 section 2234, subdivision (b), of the Code in that Respondent committed act(s) and/or omission(s)
15 amounting to gross negligence. The circumstances are as follows:

16 **Patient A**

17 23. Beginning on or about March 5, 2014, Respondent was working as a contract
18 physician at Butte County Behavioral Health (BCBH), in Oroville, California, where his duties
19 consisted of providing psychiatric care to minor patients.

20 24. On or about March 5, 2014, Respondent began treating Patient A, the grandfather
21 of a BCBH patient. Patient A was not himself a BCBH patient, and Respondent did not have
22 authorization from BCBH to use its facilities and/or property to treat Patient A. Patient A was a
23 personal friend of Respondent, who had been a BCBH employee for several years, but no longer
24 worked there.

25 25. During Respondent's care and treatment of Patient A, Respondent agreed to treat
26 him without recording his medical information on a BCBH chart. Instead, Respondent kept
27 separate, handwritten records of their meetings in his desk at BCBH. These records existed
28

1 outside of the BCBH records system, and were unknown and inaccessible to anyone other than
2 Respondent.

3 26. The Board obtained certified pharmacy profiles pertaining to Patient A from the
4 dates of March 5, 2014, to September 13, 2016. During that time period, Respondent prescribed
5 large amounts of a variety of controlled substances to Patient A. For example, between March 5,
6 2014, and September 13, 2016, Respondent prescribed or refilled the following controlled
7 substances to Patient A:

Date Filled	Prescription	Quantity	Dosage	Schedule
March 5, 2014	Alprazolam	60 tablets	0.5 mg.	IV
April 3, 2014	Alprazolam	60 tablets	0.5 mg.	IV
May 20, 2014	Alprazolam	60 tablets	0.5 mg.	IV
July 11, 2014	Alprazolam	120 tablets	1 mg.	IV
August 10, 2014	Alprazolam	120 tablets	1 mg.	IV
September 6, 2014	Alprazolam	120 tablets	1 mg.	IV
September 16, 2014	Zolpidem tartrate	30 tablets	10 mg	IV
September 28, 2014	Alprazolam	120 tablets	1 mg.	IV
October 21, 2014	Zolpidem tartrate	30 tablets	10 mg	IV
October 24, 2014	Temazepam	30 capsules	30 mg.	IV
October 26, 2014	Alprazolam	120 tablets	1 mg.	IV
November 23, 2014	Zolpidem tartrate	30 tablets	10 mg	IV
November 23, 2014	Alprazolam	120 tablets	1 mg.	IV
December 12, 2014	Temazepam	30 capsules	30 mg.	IV
December 21, 2014	Alprazolam	120 tablets	1 mg.	IV
January 9, 2015	Temazepam	30 capsules	30 mg.	IV
January 17, 2015	Zolpidem tartrate	30 tablets	10 mg	IV
January 20, 2015	Alprazolam	120 tablets	1 mg.	IV
February 8, 2015	Temazepam	30 capsules	30 mg.	IV

7
8 27. During the aforementioned time period, Patient A was also being prescribed large
9 amounts of oxycodone HCL, hydromorphone HCL, and morphine sulfate by other medical
10 practitioners.

11 28. Although Respondent had prescribed Patient A high doses of benzodiazepines,
12 stimulants, sleep medicine, and opioids during the aforementioned time period—which required
13 intensive monitoring—Respondent only saw Patient A during his visits with the patient’s
14 grandchild, who was a BCBH patient. Those visits with the BCBH patient, which lasted
15 approximately thirty (30) minutes, required Respondent to address the BCBH patient’s medical
16 problems, which were extensive. Each of the prescriptions issued to Patient A by Respondent
17 were from BCBH prescription pads. Additionally, during Respondent’s care and treatment of
18 Patient A, Respondent solely used the BCBH facility and BCBH’s property. Respondent failed to
19 coordinate the care and treatment of Patient A with his other medical providers. This failure
20 deprived Patient A from ancillary services that could have helped address his underlying issues.

21 29. On or about April 14, 2016, Patient A’s wife called BCBH staff on the telephone.
22 During the telephone call, she was irate and yelled at staff members for not having completed a
23 PAR/TAR¹ for Patient A. The staff member responded that BCBH was unable to do anything
24 without first speaking with Respondent.

25 30. On or about May 10, 2016, Patient A arrived at the BCBH waiting room. He was
26 upset, and loudly banged on the lobby door and yelled as he attempted to gain entry through the

27 ¹ A Participating Provider (PAR) has an agreement with a particular health insurance
28 payer. A Treatment Authorization Request (TAR) is submitted to Medi-Cal, in order to receive
authorization for a particular medical action.

1 locked door. He then telephoned Respondent, who arrived shortly after, walked with Patient A to
2 the facility's parking lot, and gave Patient A an envelope. Patient A then left the facility.

3 31. On May 31, 2016, Respondent authored a progress note regarding Patient A,
4 which stated, "[Patient A] called and asked for a 3 mos supply of meds-wrote them out but
5 informed, no more, after today, thus encouraging them to get care elsewhere, ASAP."

6 Nonetheless, Respondent continued to prescribe controlled substances to Patient A, without any
7 clinical documentation or charting, until September 13, 2016.²

8 32. Following notice that he was the subject of an investigation by the Department of
9 Consumer Affairs (DCA) Division of Investigation (DOI), on or about February 20, 2019,
10 Respondent drafted retroactive records related to his care and treatment of Patient A, and
11 provided the records to the assigned investigator. The records, which pertained to five (5) patient
12 visits, which began in "Spring 2015" and ended on February 9, 2016, were inaccurate and did not
13 cover the complete timeframe during which Patient A was seen. They additionally do not cover
14 critical events, such as when Patient A acted disruptively at BCBH, or why Patient A's
15 benzodiazepine dose was quadrupled shortly into his treatment. The notes additionally failed to
16 list all of the medications prescribed to Patient A.

17 **Patient B**

18 33. On or about May 24, 2016, Respondent treated Patient B, a then eight (8) year old
19 foster child. During the visit, Patient B's foster mother stated that she had repeatedly attempted
20 to obtain the drug, Abilify, for Patient B, however, Medi-Cal repeatedly denied the requests.
21 Respondent asked Patient B's mother if she had private insurance, to which she replied that she
22 did. Respondent replied that he would write a prescription for Abilify in her name, so that she
23 could fill it and administer the Abilify for the use of Patient B.

24 34. Although he was aware of its illegality, before ending the visit, Respondent wrote,
25 on a BCBH prescription pad, a prescription for three (3) refills of thirty (30) Abilify tablets, in
26 twenty (20) milligram doses, in Patient B's foster mother's name.

27
28 ² Respondent's contract with BCBH was terminated on June 10, 2016.

1 35. Following the visit with Patient B and Patient B's foster mother, Respondent
2 entered a treatment note, which stated the following:

3 "Subjective: [redacted] never got the Risperdal since it wasn't covered but have been
4 relying on samples of Abilify with excellent results. No PTSD symptoms, no cycling,
5 no suicidal/homicidal thoughts and no side effects. Sleep, interest, energy, concert,
6 appetite are fine.

7 "O: relax, verbal, broad affect.

8 "A: PTSD, rule out mood disorder NOS.

9 "Plan: stop the Risperdal and go back to Abilify, continue clonidine and return to
10 clinic in three months."

11 Respondent additionally entered in Patient B's treatment notes that he had prescribed Abilify to
12 Patient B's mother.

13 36. Despite the fact that Respondent's notes pertaining to the May 24, 2016, visit with
14 Patient B contain the basic elements of the SOAP³ format, the notes failed to adequately convey
15 many necessary aspects of the examination, such as compliance or objective findings—
16 specifically, speech, attention, and/or thought process. More importantly, Respondent's notes
17 failed to convey why Patient B was in need of extreme medications that are not authorized by
18 Medi-Cal. Nor do the notes mention the guidelines Respondent was following in treating Patient
19 B. Respondent's notes fail to address whether laboratory monitoring is being done and whether
20 benefits of treatment outweigh the risks for Patient B.

21 37. Following notice that he was the subject of an investigation by DOI, on or about
22 April 29, 2019, Respondent provided a retroactive chart regarding his care and treatment of
23 Patient B. In the chart, Respondent admitted to prescribing Abilify to Patient B's foster mother,
24 which was intended for Patient B, and that Patient B's foster mother was never his patient.

25 38. On or about June 12, 2019, Respondent participated in an interview with DOI.
26 During the interview, Respondent stated that he prescribed the Abilify, which was intended for
27 Patient B, to Patient B's foster mother, because he was "worried about her hurting herself or
28 others or having to require hospitalization." When asked if the agreement to prescribe to Patient

³ The SOAP note is a method of documentation employed by health care providers to transcribe notes in a patient's chart. The standard SOAP note format consists of the subjective component, objective component, assessment, and plan.

1 B's foster mother was documented, Respondent replied that it all occurred verbally. After being
2 shown the prescription, Respondent acknowledged that there did not appear to have been an
3 emergency. He additionally acknowledged that the amount prescribed should have lasted Patient
4 B over a year, which appeared inconsistent with an emergency scenario. Further, he
5 acknowledged that he was aware that it was inappropriate to prescribe for one person with the
6 intent of the prescription being used by another person.

7 **Patient C**

8 39. On or about May 31, 2016, Respondent began treating Patient C at BCBH. Patient
9 C was a minor teenager, who was taking prescribed Zoloft, Abilify, Lamictal, and Ativan, from a
10 previous medical provider. Prior to concluding the visit, Respondent wrote two (2) Zoloft
11 prescriptions to Patient C, which resulted in Patient C receiving 400 milligrams of Zoloft daily.⁴
12 Due to the high amount of Zoloft prescribed by Respondent, Patient C's daily Zoloft dose
13 exceeded the recommended limit. This resulted in Patient C's insurance refusing to cover the full
14 amount of the Zoloft prescription. In response, Respondent wrote one prescription for thirty (30)
15 200-milligram tablets of Zoloft, to be processed through Patient C's mother's insurance company.
16 Respondent also wrote a second prescription for sixty (60) 100-milligram tablets of Zoloft, to be
17 paid for in cash.

18 40. When transcribing the two Zoloft prescriptions, Respondent failed to adequately or
19 accurately document important information. Specifically, when writing the sixty (60) tablet
20 prescription for Zoloft, Respondent should have documented it as a once-a-day dosage.
21 Additionally, since two (2) different pill strengths of the same medication were intended to be
22 taken concurrently, Respondent should have stated in both prescriptions that they were being used
23 in conjunction.

24 41. Following the visit, Respondent entered the following progress notes regarding his
25 care and treatment of Patient C:

26 "Subjective: [redacted] is doing very good with the current meds combination but still
27 has some OCD [obsessive compulsive disorder] symptoms of skin picking and is

28 ⁴ Respondent stated in his June 16, 2019, interview with DOI that he had an understanding
with Patient C's mother that Patient C was to only take 300 milligrams of Zoloft daily.

1 enuretic [bedwetting] at night but mom does not want to change any of the meds. No
2 depression, no significant mood swings, is happy overall and sleep, interest, energy,
concentration, and appetite are fine. No suicidal or homicidal thoughts and no side
effects. [sic]

3 "O: chunky, lesions on arms from skin picking, blunted affect.

4 "A: mood disorder NOS, OCD, Asperger's.

5 "Plan: continue Zoloft, Lamictal, Rexulti and Ativan and return to clinic in three
6 months."

7 42. Respondent failed to document accurate and adequate treatment notes for Patient
8 C. Despite the fact that Respondent's notes contain the basic elements of the SOAP format, the
9 notes failed to adequately convey many necessary aspects of the examination, such as compliance
10 or objective findings—specifically, speech, attention, and/or thought process. More importantly,
11 Respondent's notes failed to convey why Patient C, a minor patient, was in need of extreme
12 medications and high doses. Although Respondent stated in his interview that he believed that he
13 might have discussed decreasing the Zoloft doses to Patient C's mother, Respondent's notes lack
14 any documentation of the discussion. Respondent additionally failed to clearly document in the
15 notes that he was issuing two prescriptions for the same medication, with the intention for the
16 medications to be filled concurrently. Moreover, Respondent failed to properly document his
17 reasons for prescribing such an unusual dosage of Zoloft to Patient C.

18 43. Respondent committed the following acts of gross negligence regarding Patient A:

- 19 a.) Respondent provided unauthorized psychiatric care for a personal friend at
20 BCBH;
21 b.) Respondent engaged in substandard record keeping and documentation; and
22 c.) Respondent overprescribed controlled substances.

23 44. Respondent committed gross negligence regarding Patient B, in that Respondent
24 wrote a prescription for Patient B's mother, which was intended for Patient B.

25 45. Respondent committed gross negligence regarding Patient C, in that Respondent
26 engaged in substandard record keeping and documentation.

28 ///

1 **SECOND CAUSE FOR DISCIPLINE**

2 **(General Unprofessional Conduct)**

3 46. Respondent is further subject to disciplinary action under sections 2227 and 2234,
4 as defined by section 2234 of the Code, in that he has engaged in conduct which breaches the
5 rules or ethical code of the medical profession, or conduct which is unbecoming of a member in
6 good standing of the medical profession, and which demonstrates an unfitness to practice
7 medicine, as more particularly alleged in paragraphs 23 through 45 above, which are hereby
8 realleged and incorporated by reference as if fully set forth herein. Respondent additionally
9 engaged in the following unprofessional conduct:

10 **Patient D**

11 47. On or about March 28, 2018, Respondent and his daughter were visiting a personal
12 friend, who is a licensed veterinarian. During the visit, Respondent's friend's dog escaped its
13 kennel and bit Respondent's minor daughter on the head. Following the dog bite, Respondent
14 supervised and aided his friend in the unlicensed practice of medicine on humans, while his friend
15 sutured the child's wounds. After the placement of sutures was completed, Respondent obtained a
16 ten (10) day supply of cephalexin (antibiotics), from his friend, to administer to the child.

17 **THIRD CAUSE FOR DISCIPLINE**

18 **(Repeated Negligent Acts)**

19 48. Respondent's license is subject to disciplinary action under section 2234,
20 subdivision (c) of the Code in that he committed repeated negligent acts. The circumstances are
21 set forth in paragraphs 23 through 47, above, which are incorporated here by reference as if fully
22 set forth. Additional circumstances are as follows:

23 49. Respondent committed repeated negligent acts regarding Patient B in that
24 Respondent engaged in substandard record keeping and documentation.

25 ///

26 ///

27 ///

28 ///

1 **FOURTH CAUSE FOR DISCIPLINE**

2 **(Creating False Records)**

3 50. Respondent's license is subject to disciplinary action under section 2262 in that he
4 created false medical records with fraudulent intent. The circumstances are set forth in paragraphs
5 33 through 38, which are incorporated here by reference as if fully set forth.

6 **FIFTH CAUSE FOR DISCIPLINE**

7 **(Signing False Records)**

8 51. Respondent's license is subject to disciplinary action under section 2261 in that he
9 signed a false medical record. The circumstances are set forth in paragraphs 33 through 38,
10 which are incorporated here by reference as if fully set forth.

11 **SIXTH CAUSE FOR DISCIPLINE**

12 **(False Claims to Medi-Cal, Dishonesty)**

13 52. Respondent's license is subject to disciplinary action under section 810,
14 subdivisions (a)(1) and (a)(2), and 2234, subdivision (e), in that Respondent knowingly submitted
15 false claims to Medi-Cal and knowingly created false treatment records to support those false
16 claims. The circumstances are set forth in paragraphs 33 through 38, which are incorporated here
17 by reference as if fully set forth.

18 **SEVENTH CAUSE FOR DISCIPLINE**

19 **(Failure to Maintain Accurate and Adequate Records)**

20 53. Respondent's license is subject to disciplinary action under section 2266, in that he
21 failed to maintain adequate and accurate records. The circumstances are set forth in paragraphs
22 23 through 52, which are incorporated here by reference as if fully set forth.

23 **DISCIPLINARY CONSIDERATIONS**

24 54. To determine the degree of discipline, if any, to be imposed on Respondent,
25 Complainant alleges that on or about January 26, 2007, in a prior disciplinary action entitled *In*
26 *the Matter of the Accusation Against Thomas Jerome Lancaster, M.D.* before the Medical Board
27 of California, in Case Number 02-2003-149423, Respondent's license was placed on probation for
28 five (5) years—which included several terms and conditions—for gross negligence, repeated

1 negligent acts, incompetence, and prescribing without a good faith examination, in the care and
2 treatment of multiple patients. That decision is now final and is incorporated by reference as if
3 fully set forth herein.

4 **PRAYER**

5 WHEREFORE, Complainant requests that a hearing be held on the matters herein alleged,
6 and that following the hearing, the Medical Board of California issue a decision:

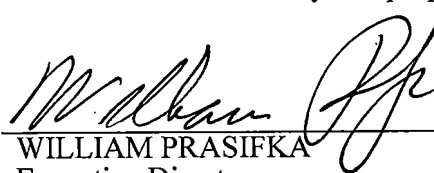

7 1. Revoking or suspending Physician's and Surgeon's Certificate No. G 70162, issued
8 to Thomas Jerome Lancaster, M.D.;

9 2. Revoking, suspending or denying approval of Thomas Jerome Lancaster, M.D.'s
10 authority to supervise physician assistants and advanced practice nurses;

11 3. Ordering Thomas Jerome Lancaster, M.D., if placed on probation, to pay the Board
12 the costs of probation monitoring; and

13 4. Taking such other and further action as deemed necessary and proper.

14
15 DATED: OCT 13 2020

16 
17 WILLIAM PRASIFKA
18 Executive Director
19 Medical Board of California
