

BEFORE THE  
MEDICAL BOARD OF CALIFORNIA  
DEPARTMENT OF CONSUMER AFFAIRS  
STATE OF CALIFORNIA

In the Matter of the Decision and Order  
against:

**Renee M. Dupont, M.D.**

Physician's and Surgeon's  
Certificate No. A42799

Respondent.

Case No. 800-2016-025039

**CEASE PRACTICE ORDER**

In the Medical Board of California (Board) Case No. 800-2016-025039, the Board issued a Decision adopting a Stipulated Settlement and Disciplinary Order, which became effective November 27, 2019. In the Board's Order, Physician's and Surgeon's License No. A42799, issued to Renee M. Dupont, M.D., was revoked, with the revocation stayed, and placed on probation for 5 years, with various terms and conditions, including:

**Probationary Condition No. 1 -Alcohol-Abstain From Use.** Respondent shall abstain completely from the use of products or beverages containing alcohol.

**Probationary Condition No. 6 -Biological Fluid Testing.** Respondent shall immediately submit to biological fluid testing, at Respondent's expense, upon request of the Board or its designee. "Biological fluid testing" may include, but is not limited to, urine, blood, breathalyzer, hair follicle testing, or similar drug screening approved by the Board or its designee. Respondent shall make daily contact with the Board or its designee to determine whether biological fluid testing is required. Respondent shall be tested on the date of the notification as directed by the Board or its designee. The Board may order a Respondent to undergo a biological fluid test on any day, at any time, including weekends and holidays. Except when testing on a specific date as ordered by the Board or its designee, the scheduling of biological fluid testing shall be done on a random basis. The cost of biological fluid testing shall be borne by Respondent.

During the first year of probation, Respondent shall be subject to 52 to 104 random tests. During the second year of probation and for the duration of the probationary term, up to five (5) years, Respondent shall be subject to 36 to 104 random tests per year. Only if there has been no positive biological fluid tests in the previous five (5) consecutive years of probation, may testing be reduced to one (1) time per month. Nothing precludes the Board from increasing the number of random tests to the first-year level of frequency for any reason.

Prior to practicing medicine, Respondent shall contract with a laboratory or service, approved in advance by the Board or its designee, that will conduct random, unannounced, observed, biological fluid testing and meets all of the following standards:

(a) Its specimen collectors are either certified by the Drug and Alcohol Testing Industry Association or have completed the training required to serve as a collector for the United States Department of Transportation.

(b) Its specimen collectors conform to the current United States Department of Transportation Specimen Collection Guidelines.

(c) Its testing locations comply with the Urine Specimen Collection Guidelines published by the United States Department of Transportation without regard to the type of test administered.

(d) Its specimen collectors observe the collection of testing specimens.

(e) Its laboratories are certified and accredited by the United States Department of Health and Human Services.

(f) Its testing locations shall submit a specimen to a laboratory within one (1) business day of receipt and all specimens collected shall be handled pursuant to chain of custody procedures. The laboratory shall process and analyze the specimens and provide legally defensible test results to the Board within seven (7) business days of receipt of the specimen. The Board will be notified of non-negative results within one (1) business day and will be notified of negative test results within seven (7) business days.

(g) Its testing locations possess all the materials, equipment, and technical expertise necessary in order to test Respondent on any day of the week.

(h) Its testing locations are able to scientifically test for urine, blood, and hair specimens for the detection of alcohol and illegal and controlled substances.

(i) It maintains testing sites located throughout California.

(j) It maintains an automated 24-hour toll-free telephone system and/or a secure on-line computer database that allows Respondent to check in daily for testing.

(k) It maintains a secure, HIPAA-compliant website or computer system that allows staff access to drug test results and compliance reporting information that is available 24 hours a day.

(l) It employs or contracts with toxicologists that are licensed physicians and have knowledge of substance abuse disorders and the appropriate medical training to interpret and evaluate laboratory biological fluid test results, medical histories, and any other information relevant to biomedical information.

(m) It will not consider a toxicology screen to be negative if a positive result is obtained while practicing, even if Respondent holds a valid prescription for the substance.

Prior to changing testing locations for any reason, including during vacation or other travel, alternative testing locations must be approved by the Board and meet the requirements above.

The contract shall require that the laboratory directly notify the Board or its designee of non-negative results within one (1) business day and negative test results within seven (7) business days of the results becoming available. Respondent shall maintain this laboratory or service contract during the period of probation.

A certified copy of any laboratory test result may be received in evidence in any proceedings between the Board and Respondent.

If a biological fluid test result indicates Respondent has used, consumed, ingested, or administered to herself a prohibited substance, the Board shall order Respondent to cease practice and instruct Respondent to leave any place of work where Respondent is practicing medicine or providing medical services. The Board shall immediately notify all of Respondent's employers, supervisors and work monitors, if any, that Respondent may not practice medicine or provide medical services while the cease-practice order is in effect.

A biological fluid test will not be considered negative if a positive result is obtained while practicing, even if the practitioner holds a valid prescription for the

substance. If no prohibited substance use exists, the Board shall lift the cease-practice order within one (1) business day.

After the issuance of a cease-practice order, the Board shall determine whether the positive biological fluid test is in fact evidence of prohibited substance use by consulting with the specimen collector and the laboratory, communicating with the licensee, her treating physician(s), other health care provider, or group facilitator, as applicable.

For purposes of this condition, the terms "biological fluid testing" and "testing" mean the acquisition and chemical analysis of a Respondent's urine, blood, breath, or hair.

For purposes of this condition, the term "prohibited substance" means an illegal drug, a lawful drug not prescribed or ordered by an appropriately licensed health care provider for use by Respondent and approved by the Board, alcohol, or any other substance Respondent has been instructed by the Board not to use, consume, ingest, or administer to herself.

If the Board confirms that a positive biological fluid test is evidence of use of a prohibited substance, Respondent has committed a major violation, as defined in section 1361.52(a), and the Board shall impose any or all of the consequences set forth in section 1361.52(6), in addition to any other terms or conditions the Board determines are necessary for public protection or to enhance Respondent's rehabilitation.

**Probationary Condition No. 9-Violation of Probation Condition for Substance Abusing Licensees.** Failure to fully comply with any term or condition of probation is a violation of probation.

A. If Respondent commits a major violation of probation as defined by section 1361.52, subdivision (a), of Title 16 of the California Code of Regulations, the Board shall take one or more of the following actions:

(1) Issue an immediate cease-practice order and order Respondent to undergo a clinical diagnostic evaluation to be conducted in accordance with section 1361.5, subdivision (c)(l), of Title 16 of the California Code of Regulations, at Respondent's expense. The cease-practice order issued by the Board or its designee shall state that Respondent must test negative for at least a month of continuous biological fluid testing before being allowed to resume practice. For purposes of determining the length of time a Respondent must test negative while undergoing continuous biological fluid testing following issuance of a cease-practice order, a month is defined as thirty calendar (30) days. Respondent may not resume the practice of medicine until notified in writing by the Board or its designee that she may do so.

(2) Increase the frequency of biological fluid testing.

(3) Refer Respondent for further disciplinary action, such as suspension, revocation, or other action as determined by the Board or its designee.

B. If Respondent commits a minor violation of probation as defined by section 1361.52, subdivision (c), of Title 16 of the California Code of Regulations, the Board shall take one or more of the following actions:

(1) Issue a cease-practice order;

(2) Order practice limitations;

(3) Order or increase supervision of Respondent;

(4) Order increased documentation;

(5) Issue a citation and fine, or a warning letter;

(6) Order Respondent to undergo a clinical diagnostic evaluation to be conducted in accordance with section 1361.5, subdivision (c)(l), of Title 16 of the

California Code of Regulations, at Respondent's expense;

(7) Take any other action as determined by the Board or its designee.

C. Nothing in this Decision shall be considered a limitation on the Board's authority to revoke Respondent's probation if she has violated any term or condition of probation. If Respondent violates probation in any respect, the Board, after giving Respondent notice and the opportunity to be heard, may revoke probation and carry out the disciplinary order that was stayed. If an Accusation, or Petition to Revoke Probation, or an Interim Suspension Order is filed against Respondent during probation, the Board shall have continuing jurisdiction until the matter is final, and the period of probation shall be extended until the matter is final.

Respondent has failed to obey Probationary Conditions No. 1, 6, and 9, as ordered in the above Decision, by testing positive for the metabolites of alcohol. Accordingly, Respondent, Renee M. Dupont, M.D., is prohibited from engaging in the practice of medicine. Respondent shall not resume the practice of medicine until Respondent has had 30 days of continuous negative biological fluid testing.

IT IS SO ORDERED August 7, 2020 at 5:00 p.m.
