ORDER CLARIFYING
TERMS OF PROBATION

THIS CAUSE came before the Board of Medical Examiners (Board) on August 3, 1985, in Amelia Island, Florida upon the request of the supervising physician, Donald E. Johnson, M.D. for clarification of a condition of probation of Respondent, Salvador S. Ginori, M.D.

Clarification was requested as to the term "direct supervision" as it relates to Respondent's hospital privileges. Specifically, the supervising physician asks whether he must be physically present during all hospital rounds on Respondent's or his patients.

Upon consideration, it is noted that the term "direct supervision" is not used in the documents upon which Respondent was placed on probation. However, the term "close supervision" is used. That term is hereby clarified to mean that Respondent's supervising physician is not required to be physically present during Respondent's hospital rounds.

However, a female nurse must be present during the treatment of any female patient by the Respondent.

DONE and ORDERED this 20th day of September, 1985.

ORDER

This matter came before the Board of Medical Examiners (Board hereinafter) pursuant to Section 458.313(3), Florida Statutes, on October 8, 1983, in Amelia Island, Florida, for the purpose of considering the Petition for Reinstatement filed by the Respondent in the above-styled matter. After review of the Petition for Reinstatement, the supporting documentation offered on behalf of Respondent, and being otherwise fully advised in the premises, the Board makes the following findings and conclusions.

FINDINGS OF FACT

1. On January 5, 1982, the Board rendered an Order adopting a Stipulation entered into by Respondent under which he was permitted to voluntarily relinquish his license with the understanding that Respondent could petition for reinstatement once certain conditions were satisfied. The conditions are expressly stated in the Stipulation.

2. The Respondent thereafter filed a Petition for Reinstatement with the Board. In an Order, rendered June 23, 1983, the Board found that Respondent's Petition, to the extent it sought an unrestricted license, was premature and, further, that his proposed plan for reinstatement was deficient. More specifically,

the Board found that the Respondent's plan for re-entry into the practice of medicine was not sufficiently organized as it lacked adequate supervision requirements and did not provide for a structured practice.

3. In a request dated July 14, 1983, Respondent submitted a request to petition for reinstatement. Upon review of the request, the Board found that the request appeared to address the concerns expressed in the Board's June 23, 1983 Order and in an Order rendered September 15, 1983, granted Respondent's request to petition.

4. Upon review of Respondent's petition and the supporting documentation, the Board finds that the proposal provides sufficient safeguards to insure that Respondent will practice in a manner consistent with the requirement of Section 458.331(3), Florida Statutes. Further, Respondent's statement in his petition that he will practice medicine under any additional conditions imposed by the Board provides the Board with the necessary authority to fashion appropriate practice settings.

CONCLUSIONS OF LAW

1. The Board has jurisdiction of this matter pursuant to Section 458.331(3), Florida Statutes.

2. It is the conclusion of the Board that the Respondent has demonstrated to the Board's satisfaction that his petition for reinstatement has merit and that his Florida medical license should be reinstated subject to the terms and conditions imposed by the petition and any terms deemed necessary by the Board.

3. There is competent, substantial evidence to support the Board's findings and conclusions.

WHEREFORE, it is ORDERED AND ADJUDGED that the Petition for Reinstatement filed by Salvador S. Ginori, M.D., be and is hereby granted and his Florida medical license is reinstated subject to the terms and conditions specified in his petition. Additionally, Respondent's license shall be placed on probation for a period of five (5) years beginning the date of reinstatement which probation is subject to the terms and conditions that he continue psychiatric

treatment, that his treating psychiatrist, Dr. Mario Martinez, and his supervising physician Dr. Oswaldo Garcia, shall make quarterly reports to the Board, and that Respondent shall make semi-annual appearances before the Board. (Respondent agreed at the time of the Board's consideration of his petition that he would waive confidentiality, as to the Board only, of any investigative reports prepared during his probation so that the Board could review the reports despite any statutory or rule provision to the contrary).

This Order takes effect upon filing.

FINAL ORDER OF
THE BOARD OF MEDICAL EXAMINERS

This matter came before the Board of Medical Examiners (Board hereinafter) pursuant to Section 458.313(3), Florida Statutes, on June 4, 1983, in Palm Beach, Florida, for the purpose of considering the Petition for Reinstatement filed by the Respondent in the above-styled matter. The Petitioner was represented by Joseph W. Lawrence, II, Esq. The Respondent was represented by Monroe Gelb, Esq. After review of the Petition for Reinstatement, the testimony and evidence offered on behalf of Respondent, the argument of the parties, and being otherwise fully advised in the premises, the Board makes the following findings and conclusions.

FINDINGS OF FACT

1. On January 5, 1982, the Board rendered its Order adopting a Stipulation entered into by Respondent under which he was permitted to voluntarily relinquish his license with the understanding that Respondent could petition for reinstatement once certain conditions were satisfied. The conditions are expressly stated in the Stipulation.

2. The Respondent has filed a Petition for Reinstatement with the Board. It is the finding of the Board that Respondent's

Petition, to the extent it seeks an unrestricted license, is premature and, further, that his proposed plan for reinstatement is deficient. More specifically, the Board finds that the Respondent's plan for re-entry into the practice of medicine is not sufficiently organized as it lacks adequate supervision requirements and does not provide for a structured practice. Additionally, Respondent should insure that any proposed supervising physician be present at the time of the Board's consideration of any future petitions.

CONCLUSIONS OF LAW

1. The Board has jurisdiction of this matter pursuant to Section 458.331(3), Florida Statutes.

2. It is the conclusion of the Board that the Respondent has failed to demonstrate to the Board's satisfaction that he is now capable of practicing medicine with reasonable skill and safety as required by Section 458.331(3), Florida Statutes.

3. There is competent, substantial evidence to support the Board's findings and conclusions.

WHEREFORE it is ORDERED AND ADJUDGED that the Petition for Reinstatement filed by Salvador S. Ginori, M.D. be and hereby is denied on the grounds that he has failed to satisfy the requirements of Section 458.331(3), Florida Statutes. This Order becomes effective the date of filing.

STIPULATION

I, SALVADOR S. GINORI, M.D., HEREBY STIPULATE AND AGREE
TO THE FOLLOWING:

1. On June 12, 1981, an Administrative Complaint was
filed against me by the Department of Professional Regulation,
charging various violations of Chapter 453, Florida Statutes,
the Medical Practice Act. A copy of said Administrative
Complaint is attached hereto and incorporated herein by reference.

2. While I neither admit nor deny the allegations of
fact contained in the Administrative Complaint, I understand
that the Board of Medical Examiners may find me guilty of
violating Sections 458.331(1)(s), Florida Statutes (1980) and
458.331(1)(t), Florida Statutes (1979).

3. In order to avoid further administrative proceedings
involving this matter, I hereby agree to the following:

A. I shall immediately surrender my license to practice
medicine in the State of Florida.

4. I may petition for reinstatement of my license to
practice medicine at any time, providing that the following
conditions have been satisfied:

A. I have successfully completed independent mental
and physical examinations by physicians and persons named by
the Board of Medical Examiners, as well as those chosen by
myself. "Successful completion" shall mean that the results
of all examinations demonstrate by competent, substantial
evidence, that I am able to practice medicine with reasonable
skill and safety to patients.

8. I understood that in any hearing with regard to my petition for reinstatement, all evidence of a type admissible in administrative hearings shall be admissible before the Board, and that the parties shall not be limited by new examinations conducted solely in conjunction with the Respondent's petition for Reinstatement.

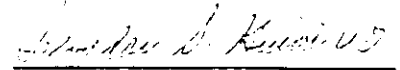

9. Upon reinstatement of my license to practice medicine, the Board of Medical Examiners may impose any conditions which it deems necessary to ensure that I will engage in the practice of medicine with reasonable skill and safety to patients. These conditions shall include, but not be limited to a requirement of continuing psychotherapy, practice in a structured medical environment, and periodic reporting by my psychotherapist to the Board of Medical Examiners concerning my progress.

6. If following my reinstatement, a finding of probable cause is made that I am unable to practice medicine with reasonable skill and safety, my license shall be subject to immediate emergency suspension. In such event, however, it shall be the Petitioner's responsibility to immediately institute further disciplinary proceedings pursuant to Chapter 458, the Medical Practice Act, and Chapter 120, the Administrative Procedure Act, should I so desire.

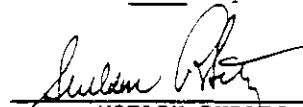

7. It is expressly understood that this "Stipulation" is subject to approval by the Board of Medical Examiners and the Department of Professional Regulation. In the event that this Stipulation is rejected the Respondent shall have the right to a Hearing pursuant to Section 120.57, Florida Statutes, with all attendant due process rights.

8. This Stipulation is executed by me for the purpose of avoiding further administrative action with respect to this cause and my license to practice medicine in the State of Florida. In this regard, I expressly authorize the Board of Medical Examiners to review and examine all file materials concerning me prior to and in conjunction with consideration of this "Stipulation".

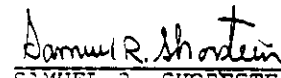

9. In the event that I am prosecuted and found guilty of any violations of the Medical Practice Act, due to the failure of this Stipulation to be approved by all parties, I hereby waive any defense to entry of a final order by the Board of Medical Examiners based upon their prior review of this Stipulation and file materials concerning me.
