against insured

(12) Include brief summary of occurrence which created claim on back.

Pt previously been released fro the hosp for stomach problems. Pt came on 9/23/82 to insd office complaining fo a sore mouth (fungus infection). Pt was taking antibiotics in the hospital & insd felt this is what caused the infection. Insd gave pt a shot of Depomedrol 80 mg. that was intended for another pt. Insd decided not to tell pt or family about the shot. Insd even charged pt for the shot. On the night of 9/24/82, pt started having abdominal cramps. Pt was readmitted to hosp & died. On 9/27/82, insd told the family about the shot & they didn't seem to be upset.
