Since returning to training, Applicant's conduct and performance have been characterized as "exemplary" and "stellar" by his program director.

In pursuing his application for licensure, Applicant has cooperated fully with the Vermont Board of Medical Practice and maintained close communication with the undersigned Assistant Attorney General. Applicant has provided detailed information regarding his past alcohol and drug use, his past involvement with law enforcement, and his

current recovery efforts. Applicant agrees that these circumstances warrant the imposition of protective conditions upon any medical license that may be granted to him by the Vermont Board of Medical Practice.

9. Applicant acknowledges that principal oversight, monitoring, and direction of his recovery efforts shall be by the New Hampshire Physician Health Program and/or the New Hampshire Board of Medicine. However, Applicant agrees that the Vermont Board of Medical Practice may refer his name, information, and his Board file or portions thereof to the Vermont Practitioner Health Program (VPHP) for such action as that program may deem appropriate, including possible evaluation, screening, assessment of his current recovery status, or other involvement or a contract with VPHP. Applicant agrees that he shall cooperate fully and in good faith with any and all reasonable recommendations of VPHP that may be made with regard to treatment and recovery, expressly including any recommendations that (a) may require monitoring/screening of blood, breath, or other samples; and/or (b) other treatment and recovery modalities.

10. Applicant understands and expressly agrees in the event of any conflict of provisions that the terms and conditions that are most protective of the Vermont public and patients shall prevail with regard to his Vermont medical license and practice in this State.

Applicant agrees that the Vermont Board of Medical Practice, in its sole discretion, may and shall resolve through its own determination any possible conflict of provisions.

D. Applicant Agrees that His Vermont License Shall Be Conditioned.

11. Applicant expressly agrees to and accepts the imposition of terms and conditions upon his Vermont medical license so as to provide for his continued treatment and recovery and protection of the public health, safety, and welfare.

12. 13. Applicant agrees to be bound by any and all conditions set forth herein. He understands and agrees that if the Vermont Board approves this agreement, his Vermont medical license shall be designated as "Conditioned" and that his licensure status and this agreement shall be matters of public information.

14. Applicant expressly agrees here that the imposition of terms and conditions upon any medical license granted to him by the Vermont Board of Medical Practice are fully warranted by his past history, his recovery needs, and protection of the Vermont public health, safety, and welfare.

He agrees that the Vermont Board of Medical Practice possesses and shall continue to maintain jurisdiction in this matter, including any required action to enforce the terms herein.

The Vermont Board, in its sole discretion, may consider a petition from Applicant for modification of these conditions, no sooner than 12 months after the effective date of this Stipulation and Consent Order, unless a petition for modification at an earlier date is otherwise expressly provided for herein.

B. Basis for Vermont Board Action; Enforcement.

19. Applicant does not contest the facts set forth in paragraphs 1 through 18, above, and agrees that the Board of Medical Practice may adopt and enter those paragraphs and the instant paragraph as uncontested findings of fact and/or conclusions of law in this matter. 20. Applicant agrees he shall comply with all terms and conditions of this Stipulation and Consent Order. Applicant understands and agrees that any substantial or repeated failure by him at any time to comply with any of the terms and conditions herein may constitute unprofessional conduct by him and, if established by the State's evidence, could result in (a) suspension or revocation of Applicant's Vermont license to practice medicine; (b) additional terms and conditions on his medical license; and/or (c) such other disciplinary action as the Board might deem appropriate under the circumstances.

Such incorporation expressly shall include any and all conditions and requirements already imposed upon Applicant's license to practice medicine by the New Hampshire Board of Medicine. Applicant agrees that he shall comply fully and in good faith with all such conditions and requirements until expressly relieved of them in writing by both the New Hampshire Board of Medicine and the Vermont Board of Medical Practice.

28. Applicant agrees that any individual and/or entity providing to him medical care and treatment, counseling, recovery services, evaluation, and testing, screening, and monitoring may share information and communicate freely and without limitation with the Vermont Board of Medical Practice or its agents and/or the VPHP program regarding his care, treatment, and recovery.

F. Vermont Care, Treatment, and Monitoring Requirements.

In the Matter of:
Andrew Horrigan, M.D.
No.: RT 1242
(Misconduct Allegations)

SETTLEMENT AGREEMENT

In order to avoid the delay and expense of further proceedings and to promote the best interests of the public and the practice of medicine, the New Hampshire Board of Medicine ("Board") and Andrew Horrigan, M.D. ("Dr. Horrigan" or "Respondent"), a physician licensed by the Board, do hereby stipulate and agree to resolve certain allegations of professional misconduct now pending before the Board according to the following terms and conditions:

1. Pursuant to RSA 329:17, I, 329:18 and 329:18-a, and Medical Administrative Rule ("Med") 206 and 210, the Board has jurisdiction to investigate and adjudicate allegations of professional misconduct committed by physicians. Pursuant to RSA 329:18-a, III, the Board may, at any time, dispose of such allegations by settlement and without commencing a disciplinary hearing.
2. The Board granted Respondent a training license number RT 1242 on June 24, 2003 which authorizes him to practice as a medical resident at Dartmouth Hitchcock Medical Center in Lebanon, NH or off-site under faculty supervision as determined to be part of his training program. Respondent's training license expires on June 30, 2010.

3. The Board received information that Respondent's attempt to obtain Ritalin for his own by writing a prescription in the name of one of his patients and delivering it to Rite-Aide Pharmacy in Concord, NH.
4. In response to this, the Board conducted an investigation and obtained information from various sources pertaining to three incidents. Respondent prescribed Ritalin for his personal use by writing a prescription using another physician's name and Drug Enforcement Agency ("DEA") registration number on a prescription; he attempted to obtain Ritalin for his own use by writing a prescription in the name of one of his patients at NH Hospital in Concord, NH; and he gave false information concerning his medical treatment and status to a medical resident who wrote a prescription for Ritalin for him.
5. Respondent stipulates that if a disciplinary hearing were to take place, Hearing Counsel would prove that Respondent engaged in professional misconduct, in violation of RSA 329:17, VI (b), and (d) by the following facts:
 - A. On or about June of 2004, Respondent obtained a prescription for Ritalin 10 mg. #30 from Medical Resident A. Respondent informed Medical Resident A that he required the Ritalin for a legitimate medical condition and was unable to obtain it from a primary care physician at that time.
 - B. On or about September of 2004, as part of his training program, Respondent learned the DEA number for Physician A. Respondent wrote a prescription for Ritalin 20 mg. #45 and which identified the Respondent as the patient.

Respondent signed the prescription with Physician A's name and DEA number.

- C. On or about December 17, 2004, Respondent wrote a prescription for Ritalin 20 mg, #45 for his personal use using the name of Patient A and attempted to fill the prescription at Rite Aide Pharmacy in Concord, NH.
- D. On or between December 17, 2004 and December 27, 2004, Dartmouth Hitchcock Medical Center learned that Respondent had attempted to obtain Ritalin by using a prescription he had filled out in Patient A's name.
- E. On or about December 27, 2004, Respondent was suspended from the resident training program at Dartmouth Hitchcock Medical Center for self-prescribing under a false name.

- 6. The Board finds that Respondent committed the acts as described above and concludes that, by engaging in such conduct, Respondent violated RSA 329:17, VI (b) and (d).
- 7. Respondent acknowledges that this conduct constitutes grounds for the Board to impose disciplinary sanctions against Respondent's license to practice as a physician in the State of New Hampshire.
- 8. Respondent consents to the Board imposing the following discipline, pursuant to RSA 329:17, VII:
 - A. Respondent is REPRIMANDED.
 - B. Respondent's license is SUSPENDED for a period of three months. The Suspension shall run concurrently with the suspension of his privileges to

practice as a medical resident at Dartmouth Hitchcock Medical Center in Lebanon, NH. The period of suspension shall not run later than the date of his reinstatement at Dartmouth Hitchcock Medical Center but shall continue until further order by the Board.

- C. Respondent shall immediately enter into the NH Physicians Health Program ("NHPHP") and meaningfully participate in all aspects of that program. He shall contract with the NHPHP for a period of no less than five (5) years. Respondent shall follow all recommendations made by the Director of the NHPHP and/or her designee.
- D. Within 20 days of the effective date of this *Settlement Agreement*, Respondent shall submit to the Board a signed copy of his contract with the NHPHP. Respondent shall provide all of the medical, mental health or substance abuse prevention professionals from whom he may seek treatment with a copy of the *Settlement Agreement*.
- E. The terms and conditions of Respondent's contract with the NHPHP are incorporated herein by reference.
- F. Respondent is assessed an ADMINISTRATIVE FINE in the amount of one thousand five hundred dollars (\$1,500). Respondent shall pay this fine in five (5) installments of \$300.00 each. The first payment shall be due within thirty (30) days of the effective date of this agreement. The remaining payments shall be due within thirty (30) days of the previous payment. All payments shall be made in the form of a money order or bank check made payable to

“Treasurer, State of New Hampshire” and delivered to the Board’s office at 2 Industrial Park Drive, Suite 8, Concord, New Hampshire.

- G. Respondent shall bear all costs of the treatment, evaluation, and reporting required by this *Settlement Agreement*, and his contract with the NHPHP but he shall be permitted to share such costs with third parties.
- H. The Board may consider Respondent’s compliance with the terms and conditions herein and with the recommendations of the treating medical, mental health or substance abuse prevention professional and the Director of the NHPHP and/or her designee in any subsequent proceeding before the Board regarding Respondent’s license.
- I. Licensing Board Matter

**STATE'S RESPONSE TO RESPONDENT'S PETITION
FOR RELIEF FROM CONDITIONS OF LICENSURE**

The State of Vermont, by and through Attorney General William H. Sorrell and undersigned Assistant Attorney General, James S. Arisman, files this response to the petition of Respondent Andrew C. Horrigan, M.D., for relief from the current conditions upon his Vermont medical license.

1. Andrew C. Horrigan, M.D., Respondent, was issued a conditioned Vermont medical license No. 042-0011312 on or about March 21, 2007 by the Vermont Board of Medical Practice. Respondent also holds medical licensure in New Hampshire. Respondent currently is practicing as a psychiatrist in a clinical treatment program in Manchester, New Hampshire.

2. Jurisdiction vests with the Vermont Board of Medical Practice (Board) by virtue of 26 V.S.A. §§ 1353, 1354, 1391 & 1398.

I. Background.

A. 2005 New Hampshire Disciplinary Action.

3. Respondent disclosed in applying for medical licensure in Vermont that he had been previously disciplined in the State of New Hampshire for acts of improper prescribing, including misuse of another physician's DEA registration number. Respondent,

who was then a resident, disclosed that he had entered into a Settlement Agreement with the New Hampshire Board of Medicine in March 2005. The New Hampshire agreement included the following discipline: (a) Respondent Horrigan was reprimanded by the New Hampshire Board for his conduct; (b) Dr. Horrigan's New Hampshire medical license was suspended for three months; (c) Dr. Horrigan was required to participate in the New Hampshire Physician Health Program¹ for a period of at least five years; and d) Dr. Horrigan was administratively fined \$1,500 by the New Hampshire Board.

4. On or about August 17, 2005, the New Hampshire Board of Medicine ended its suspension of Dr. Horrigan's medical license. On or about November 14, 2005, Dr. Horrigan returned to work and practice at Dartmouth Hitchcock Medical Center. Since 2005, Respondent's conduct and performance as a physician have been favorably characterized in all reporting reviewed by the Vermont Board of Medical Practice.

B. New Hampshire Physician Health Program Contract Requirements.

5. Respondent's practice of medicine in New Hampshire has been subject to his continuing compliance with a five-year evaluation, treatment, and monitoring program with the New Hampshire Physician Health Program (NHPHP). Requirements of his contract include evaluation and treatment, individual counseling, participation in self-help groups, random monitoring for drug and/or alcohol use, and abstention from the use of all medications and/or alcohol, unless properly prescribed. Respondent's contract with the NHPHP will continue until at least January 2010.

1. The New Hampshire Physician's Health Program is analogous to the Vermont Practitioner Health Program (VPHP) of the Vermont Medical Society.

C. Medical Licensure in Vermont.

6. Respondent's application for Vermont medical licensure in 2006 was intended to permit him to practice part-time in this State as a psychiatric resident. Respondent cooperated fully with the Vermont Board during its review of his past conduct and disciplinary history in New Hampshire. Respondent agreed with the Board that the circumstances involved in his history warranted the imposition of detailed conditions on his Vermont medical license, if one were to be granted to him. In fact, the Vermont Board imposed such conditions by Stipulation and Consent Order, as approved by the Board of Medical Practice in March 2007.

7. Under Respondent's agreement with the Vermont Board, principal oversight, monitoring, and direction of Respondent's recovery efforts was to be carried out by the New Hampshire Physician Health Program and the New Hampshire Board of Medicine. Copies of all written reporting regarding Respondent's recovery and abstinence were to be forwarded to the Vermont Board for review.²

8. All reporting received by the Vermont Board of Medical Practice regarding Respondent's recovery efforts and compliance with his agreement in New Hampshire has been positive. No adverse reports have been received.

II. Respondent's Request to Terminate Vermont Conditions of Licensure.

9. Respondent has petitioned the Vermont Board of Practice for termination of

2. Respondent also agreed that the Vermont Board of Medical Practice would refer his name, information, and his Board file to the Vermont Practitioner Health Program (VPH) for such action as that program might deem appropriate. In fact, VPH conducted an evaluation interview of Respondent and agreed that the New Hampshire Physician Health Program was the appropriate agency for continued oversight and supervision of Respondent's recovery efforts.

the conditions on his Vermont medical license. Respondent has represented the following: a) he no longer practices medicine in Vermont; b) he allowed his Vermont medical license to lapse on November 30, 2008; c) he has no current plan to practice medicine in Vermont; and d) he has continued his recovery efforts without interruption and participates faithfully in the New Hampshire Physician Health Program. In sum, Respondent represents that the continuation of conditions of licensure on his Vermont medical license no longer serves a useful purpose and is unnecessarily burdensome for both the Vermont Board and himself. Respondent emphasizes that oversight and monitoring of his recovery continues to be provided by the Physician Health Program and the New Hampshire Board of Medicine.

10. The Vermont Board's North Investigative Committee, to which this matter is assigned for monitoring, has considered Respondent's petition for relief and agrees with Respondent's reasoning, as set forth above. The Committee recommends that all conditions on Respondent's "lapsed" Vermont medical license be terminated. The State concurs in the Committee's recommendation.

11. Respondent understands and has agreed that termination of the present conditions on his "lapsed" Vermont medical license shall in no way affect or limit the usual discretion and authority of the Vermont Board of Medical Practice as to any future review, consideration, and decision making regarding any application for medical licensure that he might submit to the Vermont Board at a future date. Respondent understands and agrees that the Vermont Board of Medical Practice may and shall review his history of treatment, recovery, monitoring, compliance, cooperation with regulatory agencies, practice activities, and record in the community, during its consideration of any future application for licensure that may be submitted by him to the Board.

The State of Vermont, for the reasons set forth above, expressly including those set forth in Paragraph 11, above, moves that the Vermont Board of Medical Practice approve Respondent's petition for relief and enter an order terminating all conditions of licensure previously imposed upon the Vermont medical license of Respondent, Andrew C. Horrigan, M.D.

Dated at Montpelier, Vermont, this 19th day of April 2009.
